

Tilikum Fishing Policy

- ◆ **Catch and Release** is encouraged. Catch limit is 3/person/day. Please release bass larger than 12" - take a photo first though and share with us please! Thank you.
- ◆ **A license is not required to fish**, as we are private property.
- ◆ **Fishing is permitted from the docks with railings and shore-lines only** (excluding the waterfront area and dock, any docks without railings and the Lakeside Patio area)
- ◆ Tilikum does not provide tackle and bait.

Types of Fish at Tilikum

Largemouth Bass are plentiful and lots of fun to catch. They are aggressive and will try to eat some of the strangest lures you can imagine. They like lots of cover (trees, stumps, weeds) but can be seen prowling in the shallows.

Lures: Crankbait, Berkley PowerBait worms, Spinnerbaits, jigs and surface poppers.

Crappie are great fish and don't get the respect they deserve. They are eager, fight well and are tough little guys. Crappies are really fun to catch on light tackle or fly rod.

Lures: Worms, crappie jigs, Crappie PowerBait and flies.

Sunfish/Bluegill can be found in the shallow areas of lake. They are not picky eaters and great for young fishermen.

Lures: Use light tackle to make these little guys more fun to catch.

Catfish have been caught on all lure types listed above. They are a fun catch as they are feisty and challenging.
